

Corporate Safety Measures

IN CASE OF EMERGENCY

General Evacuation

- Wait for instruction coming from paging system or from your Fire Warden/First Fire Warden.
- Evacuate your immediate work area.
- Proceed to assembly area in an orderly manner.
- Wait for further instructions and return to work order.

In case of EARTHQUAKE

- Take shelter under reinforced structure.
- In the aftermath of an earthquake, check for injured persons.
- Proceed to assembly area in an orderly manner.
- Wait for further instructions and return to work order.

In case of FIRE:

- Call emergency helpline number 911.
- Evacuate your immediate work area.
- Proceed to assembly area in an orderly manner.
- Wait for further instructions and return to work order.

Things to Remember

- Do not panic. Stay calm.
- Call the floor marshal(s) or the floor guard on duty immediately.
- Avoid the affected area.
- Notify the floor/evacuation floor marshal(s) for injured office mates.
- Wait for the announcement from the floor/evacuation floor marshal(s).
