

Environment-Friendly Value Chain

Allianz PNB Life Insurance is committed to making efficient use of its resources by minimizing and conserving the use of energy such as electricity. It has implemented a policy to use only LED tubes and bulbs for its illumination and lighting.

Allianz PNB Life Insurance is currently practicing eco-friendly activities to help preserve the environment:

1. Using high speed hand speed dryers installed in Company's comfort rooms.
2. Printing hard copies only when necessary.
3. Recycling the use of paper (print again on the other side if you printed on one side only or use it for note paper)
4. Using of Tablets in the Company Sales Process, as our initial step in going Digital by Default
5. Time based on and off of company air condition units.
6. Using of LED lighting system throughout the company.
