

Allianz Shield

We understand that we have different needs and priorities at different stages of our lives. Some are concerned about leaving a legacy upon their passing, while others want to be prepared for the financial impact of medical expenses brought upon by severe illnesses like cancer, heart attack, & kidney failure, to name a few. The cost of medical care and the financial burden that comes with it is no laughing matter. Allianz PNB Life brings you **Allianz Shield**, a regular-pay, unit-linked insurance plan that safeguards you from financial stress during the most unexpected events in life.

What is covered?

Death Benefit

Allianz Shield provides a payout to your beneficiaries upon your death. The payout that they will receive will depend on the death benefit you have chosen at the time of purchase.

Level Death Benefit

Your beneficiaries will be able to claim a death benefit of at least the total sum assured indicated in the policy.

Increasing Death Benefit

Your beneficiaries will be able to claim a death benefit equal to the total sum assured of the policy plus the accumulated total fund value.

Note: The total fund value of your policy will be determined on the next pricing date after a claim has been filed by the beneficiary.

Legal Disclaimer

Like all other financial products, VULs have their advantages and trade-offs. As a unit-linked insurance product, the policy holder must understand and realize that the product is subject to certain risks, such as, but not limited to investment, credit, interest rate, liquidity, mark-to-market, regulatory, and taxation risks, which would affect the account or fund value of the whole VUL policy. Allianz PNB Life Insurance Inc. is guided by the investment policies approved by the Insurance Commission (IC) including the IC-issued "Guidelines on Variable Life Insurance Contracts". The supervision and regulation by the IC, however, does not guarantee the investment returns or protection of the VUL policy against capital loss. For better understanding of the nature of the aforementioned risks, a table of Definition of Risks is provided in the Sales Illustration. This is not a deposit product. Earnings are not assured and principal amount invested is exposed to risk of loss. This product cannot be sold to you unless its benefits and risks have been thoroughly explained.
